

I-7024

The image shows a blue ICP CONCEPT I-7024 data logger. The device has a rugged, rectangular design with a blue plastic casing. A white label on the front face provides technical specifications. The label includes the ICP CONCEPT logo, the model number I-7024, and a table of specifications. The top of the device features a row of orange terminal blocks for input/output connections. The bottom of the device has a small port labeled 'RS-485'.
