

RFID læser 125kHz over netværk, TCP/UDP.
supporterer forskellige subnet. TCP-Server. Reader
Config SW - 5VDC

FEATURES

- Indendørs 125kHz RFID læser med Ethernet
- 10/100M Ethernet interface
- TCP Server, UDP, DHCP
- RFID EM 125KHz ID Kort
- Forsyning: 5V DC PSU max 300mA
- 3. parts software kan anvendes
- TCP Test Tool 3.0

SPECIFICATIONS

Driftstemperatur	:	Working temperature -15°75°C, Storage temperature -25°85°C
Andet	:	Fast response to HID card, Real-time transmission. Fully support HID and its compatible card
Forsyning	:	5V DC power supply, low power consumption less than 300MA
Kompatibilitet	:	
Netværk	:	Support Network protocol such as TCP Server, TCP Client, UDP, DHCP etc
Rækkevidde	:	Effective distance is larger than 5cm
Stik	:	RJ45 og DC interface
Tilslutning	:	Support multi-to-one visit in LAN. Support internet and transmission between different subnets
Dimensioner	:	100 x 140 x 30mm
