- Serial Device Server. Begrænset antal
- Til din-skinne montering. ATOP SW5001-WgN1-single

A photograph of the ATOP SW5001-WgN1-single Serial Device Server. It is a small, grey, rack-mountable unit with a black antenna on top. The front panel features a LAN port, a serial port, and several status LEDs. The ATOP logo is visible at the bottom left of the front panel.

FEATURES

- Serial Device Server. Begrænset antal
- Til din-skinne montering. ATOP SW5001-WgN1-single

The image shows a black, rectangular ATOP SW5001-WgN1-single Serial Device Server. It is a rack-mountable unit with a silver metal mounting bracket on the left side. A black, vertically oriented antenna is attached to the top. The front panel features several ports and indicators: a BNC connector, a D-sub connector, a green Ethernet port, and a green serial port. There are also several status LEDs and a small display screen. The ATOP logo is visible at the bottom left of the front panel.
