

Logic Controller with GSM module. Data Logger, 1 x RJ45 Ethernet, 1 x RS232, 1 x RS485. RTC. 12 - 48VDC

FEATURES

- Built-in Web server
- Logical functions with IF-THEN-ELSE setting
- IF-THEN-ELSE for simple set of conditions
- No more programming. Just click and finished
- Supports I / O, counter, timer, calendar, e-mail, rules
- Data Logger and data files supported rewind feature
- Modbus TCP / RTU protocol for SCADA software seamless integration
- I/O-Board XW with inputs and outputs
- Supports I-7000 Remote I / O modules (up to 16)
- Supports Modbus RTU slave units (up to 10)
- SNTP time synchronization supported
- Support SMS (GSM: Quad-band 850/900/1800/1900 MHz)
- Supply voltage: 12 - 48VDC

SPECIFICATIONS

Data	:	Leveres med et 4GB microSD kort
Forsyning	:	10 - 30 VDC, 2 W
Netværk	:	10/100Mbit RJ45 stik
Porte	:	COM1: RS232, COM2: RS485
Stik	:	COM1 og COM2 Skrueterminal
Udvidelser	:	Intern I/O udvidelsesbus til 1 stk. udvidelsesmodul
