

Ethernet to HART converter - Master. Allows 2 Masters. Gateway.

FEATURES

- Supports HART short / long frame
- Supports HART Burst mode
- Supports point-to-point or multi-drop HART mode
- Supports connection of up to 15 HART slave devices
- Allow 2 HART masters
- The HC_Tool tool for module configuration and HART communication
- Supports firmware update via Ethernet
- PWR / TxRx indication LED
- 4KV ESD protection
- Built-in watchdog
- Selectable 250Ω load resistor
- 4 HART channels
- Support VxComm technique
- Built-in web server for network setting

SPECIFICATIONS

Operating Temp.	:	-25 °C ~ +75 °C
Andet	:	Selectable 250 Ω terminal resistor for each HART port. Power reverse polarity protection, Over-voltage brown-out protection
Ethernet	:	10/100 Base-TX with Auto MDI/MDI-X
Isolation	:	500 VDC
Kanaler	:	4
LED	:	PWR : Power Indicator TxRx : Data Received from Ethernet / HART Indicator
Luftfugtighed	:	5% ~ 95% RH, non-condensing
Montering	:	DIN-Rail or Wall Mounting
Stik	:	2-pin screwed terminal block for each HART port
