

Network module with 8 analog inputs Korenix JETI / O 6511

FEATURES

Korenix JETI / O 6511
Network module with 8 x analog inputs
Channels: 8
Resolution: 16 bit
Analog inputs: ± 150 mV, ± 500 mV, ± 1 V, ± 5 V, ± 10 V and ± 20 mA
Optical 2500 VRMS for analog and digital inputs and outputs for the power supply
Magnetic 1500 V from the network interface to the power supply
10/100 Mbit m / RJ45 female connector
Operating temperature: -25°C - 70°C
For DIN rail mounting
Supply: 10 - 30 VDC via terminal block. Max 3.2 W
