

Intelligent Industrial Controller with Data Logger. Web-based multifunction IIoT controller ICPDAS modules

FEATURES

The logger / controller with socket for internal I/O expansion bus (eg. Relay module) is programmed with simple logic functions IF-THEN-ELSE, AND and OR simplifies the setup supports SNMP, SMTP, FTP, Modbus RTU and DCON Ethernet 10/100/1000Mbit setup via the integrated Web server
2 x RS232 ports
2 x RS485 ports

SPECIFICATIONS

Data	:	Leveres med et 4 GB microSD kort kan udvides til 32 GB
Forsyning	:	12 til 48 volt DC maks. forbrug 4,5 watt
Netværk	:	10/100/1000Mbit RJ45 stik
Porte	:	COM1: RS232, COM2: RS232, COM3: RS485, COM4:RS485
Udvidelser	:	Intern I/O udvidelsesbus til 1 stk. udvidelsesmodul
