1-wire temperature and humidity sensor, -20 - + 60 °C, 10 - 90% RH, 2 x RJ11, max. 30 m, daisy-chain

FEATURES

1-wire communication - 2 x RJ11 connectors for daisy chain coupling.
± 3.0% relative humidity accuracy.
12 bit resolution for the moisture measurement.
14 bit resolution for temperature measurement.
calibrated digital output.
Eksellent long term stability.
Each sensor has its own unique 64-bit serial number.
