Temperature sensor with RS485, -20 to +60°C, Modbus RTU interface, 14 bit resolution, cascade connection

FEATURES

Temperature sensor TST300V2 with RS485 interface
±0.13°C accuracy from -20°C to +60°C
14-bit resolution
2 x RJ45 for daisy chain connection to next sensor
IP20 sealed enclosure
Low power consumption
Modbus address table: see TST300 manual
