

PIR-WL35

Outdoor wireless PIR sensor - infrared motion sensor with antenna, battery operated, 35 m FEATURES

- Wireless infrared outdoor PIR motion sensor
- External antenna
- Adjustable range sensor 10-35m / 750 sqm
- Battery operated 2 x AAA 1.5 volt
- Operating temperature -20 to + 55 °
- IP55 close to 150 meters line-of-sight
- For wall mounting (fittings included)
- The system does not work without reciever PIR-WL-R

SPECIFICATIONS

Operating Temp.	:	-20° C + 55° C
Andet	:	Digital integral white light filter. 16 million possible identification codes Adjustments Detection signal (CCTV) timer 0.4 to 60 secs. Light level signal 2 Lux to daylight. Pulse count 1 (2 & 3 - 6 seconds)
Batteri	:	2 x AAA (not included)
Batteri	:	Ca. 2 år
IP-Tæthed	:	Detector Housing ABS high impact IP55 rated
Montering	:	3m high for multibeam coverage, 6m high for curtain coverage and 1.5m with mask for pet immunity
Rækkevidde	:	Transmission 150 metres line-of-sight: 433.92 MHz frequency - SAW stabilised
Sensor	:	Coverage Range 10 to 35 metres: 35 x 30 m with 90° multi function lens
Weight	:	152g
Dimensioner	:	110 x 100 x 100mm (HxWxD)
