

4 Port Industrial Router with PoE +, LCD management, 10/100/1000Mbit 4 x RJ45 LAN, 1 x RJ45 WAN / LAN, 1 x USB 3.0, -10 - +60°C

## FEATURES

- 4-port 10/100 / 1000BASE-T RJ45 with IEEE 802.3af / 802.3at PoE injector
- 1-port 10/100 / 1000BASE-T RJ45 WAN port or LAN port interface (router mode or switch mode )
- 1 x USB 3.0 port for backing up and restoring configuration file
- PoE power is 36Watt per port - automatically Detect PD
- PoE monitoring, status, strømbudg PoE port enable / disable, PD live check
- IP30 metal housing, DIN bracket
- Operating temperature: -10 - + 60 ° C
- Supply voltage: 48V ~ 56V DC (PSU purchased)
- Supports IEEE 802.1Q / D
- Security: port filter, MAC filter, IP source protection, anti-DoS
- LCD touch display - field management, maintenance etc.

## SPECIFICATIONS

|             |   |                                                  |
|-------------|---|--------------------------------------------------|
| Forsyning   | : | 48 - 56VDC, maks. 134Watt                        |
| Kabinet     | : | Metal, IP30, magneter på bagplade, væg-montering |
| Montering   | : | DIN-beslag                                       |
| Mål og vægt | : | 180 x 140 x 25 mm, 728g                          |
| PoE         | : | 36Watt per port, power budget er 120Watt         |
| PoE         | : | IEEE 802.3at PSE, End-span                       |
| Skærm       | : | 2,4" Touch LCD display                           |
