

Modbus TCP Server Master for M-Bus Slavs Gateway.
Supports up to 100 M-bus units. 1 x RJ45, 1 x RS232,
M-Bus

FEATURES

- Supports M-Bus Standard: EN-13757, CJ / T -188
- 1 x RJ45 Modbus TCP
- 1 x M bus for maximum 100 slaves
- M-Bus Power limiter
- 1 X RS232 for firmware update
- Modbus TCP / RTU Function code 0x03 and 0x04 To read measurement data
- Baud rate: DIP switch to M-Bus and serial port from 300 to 115200 BPS. Standard M-Bus port- Data format: data bit 8, parity straight, stop bit 1
- supports up to 100 m bus slaves
- m-bus power protection
- short circuit protection on M-bus
- Firmware updates via serial port
- gives PWR, MTX and MRX 3 LED Indicators
- Wall Mounting
- Dim: 123 x 102 x 40 mm
- Supply voltage: 10 - 30VDC
