

WiFi Web Relay, Ethernet, Internet 1 x Digital in, 1 x Power Relay Out, 1-Wire Temperature / Humidity, Modbus / TCP, 9 - 28VDC

FEATURES

Wireless network-based digital I / O module with 1-wire port

1 x Power Relay 12amp, com No, NC

1 x Digital Input Optoisolated 0 - 26VDC

1-wire bus for 4 Temp / Moisture Sensors

Wi-Fi 802.11b/g/n

Antenna inclusive

Range up to 100 meters

Logging of input, counter value

Temperature, Moisture, relay mode and volt in

Basic script for advanced flexibility

Send email alarms (up to 8 email addresses)

Static or DHCP IP address

RTC with NTP server synchronization

No software required

XML, Modbus / TCP and Remote Services

On-site updates

Removable terminal connector
