

M485-ADRTD6-I

6 x Temperature sensors 2-3 Wire, PT100, PT1000, NI120, CU50 / 100/1000. 16bit, 12Hz Total, RS485 Bus, 10 - 30VDC

FEATURES

RS485 module for 6 Temperature sensors 6-channel RTD input

3-wire RTD input with elimination of wire resistance

Resolution: 16-bit

Individual channel configuration Disconnected sensor detection

Double Watchdog Supply: 10 - 30vdc

Operating temperature: -25 to + 75 ° C
