

8 Port Managed Gigabit Switch with M12 connector.
With automatic bypass. With IEEE 1588 PTP Time
Protocol, 9 - 48VDC

FEATURES

- Managed 10/100/1000Mbit Robust Industrial Switch
- Vibration Safe and dust proof
- M12 5 Pin Coded connector
- with automatic Bypass for next switch if failure
- IEEE 1588v2 Precision Time Protocol (PTP)
- PTP is time synchronization in infrastructure
- Modbus TCP/IP to SCADA
- SMTP / SNMP Trap - generates Email Alarm
- IGMP and MLD Snooping for Multicast
- VLAN Routing (Layer 3)
- CyberSecurity Minimizes safety risk / attacks
- Redundant Ring, Fast Recovery
- Supply voltage: 9 - 48VDC Redundant Input
- Dim: 245 x 140 x 25 mm
- Operating temperature: -40 - +75°C
- DIN bracket , wall bracket
- Weight: 1kg
