DANBIT

Remote control over network. 8 x powerful relays, 8 digital inputs. To temperature and moisture meter. Delayed engaging possible

FEATURES

8 Potential-free relay outputs - 230Vac / 16 A, 24VDC / 10 A
Relay outputs are individually via HTTPS, SNMP or Command
Startup delay from 0 to 9999 seconds. Adjusted individually
Inrush Delay is set to 1 second
Programmable on / off sequence
Activating relays can be controlled from sensor or inputs
8 channel watchdog via ICMP / TCP Ping
8 signal entrances From NO and NC units, door contacts, etc.
Entrance to sensors Temperature, humidity and air pressure
Messages via e-mail, Sylog and SNMP Trap MQTT
Depending on thresholds for sensor measurement and signal input
LED display for overall power, IP address, sensor data and error reports
Android app and iOS app
DIN bracket
