

LoRa outdoor node controller for sensors. Analog - / digital input / output. Serial Port RS232 or. RS485. Up to 10 km

FEATURES

- LoRaWan transceiver with 2 x digital inputs
- LoRaWan transceiver with 2 x analog inputs 4-20mA / 0-10V
- LoRaWan transceiver with relay output (SPDT)
- Supports LoRa Class C protocol
- Serial port: RS232 or RS485 (Transparent data)
- Collect data sent to Lora-Gateway Controller
- Frequency: 868MHz - Range Up to 10 km
- Configuration Port: Micro USB
- Operating temperature: -40 - +70°C
- Supply voltage: 5 - 24VDC
- Dim: 120 x 120 x 56 mm
