

Managed High End Media Converter 2 x RJ45 to 2 x Fiber. RJ45 Gigabit. Fiber 100/1000 / 2500Mbit SFP module. -40 - +75°C

FEATURES

- Top class media converter with 2 fiber ports and 2 RJ45 ports
- for redundant network or as Node in networks suitable where Single Mode must be connected to Multi Mode
- full managed with many features
- RJ45 10/100/1000Mbit
- Modbus TCP - Real Time Monitoring
- IEEE1588V2 - Precision Time Protocol - Transparent Time
- IEEE 802.1 Spanning Tree Protocol
- Port Mirroring - more to one
- Loop Protection - Avoid Broadcast Loop
- Supports IGMP Snooping
- IP Source Guard - Protects against Spoofing
- SMTP, Syslog, Trap
- with LFP and LLCF - Link Forward Carry Through.
- Supply voltage: 9 - 48VDC, 24VAC
- Operating temperature: -40 - + 75 ° C
- DIN bracket
- SFP modules and power supply are to be purchased
