

8-channel True RMS Input module for Modbus
RTU/DCON RS485. 45Hz to 10kHz. 0 - 150mVrms. 10 -
30VDC

FEATURES

- 8-channel True RMS Input
- $\pm 0.15\%$ factory calibrated accuracy
- The RMS input range can be from +150 mVrms to +10 Vrms
- Designed for standard operation with frequencies of 45 Hz to 10 KHz
- Channels can be individually configured
