

ETH1MOD-A

1 channel TCP/RTU/ASCII Modbus Gateway.
RS232/RS422/RS485. TCP Server/Client, Virtual Com.
9 - 30VDC

FEATURES

- 1 channel software-selectable RS-232/485/422 port
- Baud rate: 1200 - 230,400 / RS485 921,600
- Screw terminals for Data
- Screw terminals for DC supply
- 1 x 10/100 Mbps RJ45 Fast Ethernet port
- Supports TCP Server/Client, UDP, Virtual COM and Tunneling modes
- Modbus TCP/RTU/ASCII
- Configuration via the web server side, the Telnet console and the Windows Utility
- Upgradable firmware via Ethernet from a remote PC
- Robust metal cladding; industrial EMC protection
- Redundant dual DC inputs for non-stop operation
- Optional DIN rail mounting
- Supply: 9 - 30VDC or 5VDC / 9W
- Dimensions: 78 x 65 x 28 mm
- Temp: -40 - +70°C
