

VTL100059

Spot leakage and liquid level sensor

FEATURES

- Leak detection for conductive liquids
- Level monitoring in containers, pits, cellars
- Two stainless steel rods
- Encased in plastic
- Suitable for plumbing, trays, raised floors
- Can be used near toilets, basements, washing machines, water heaters
- Two RJ connectors for system integration
- Dimensions 60×18×18 mm
- Operating temperature -10 °C to +80 °C

VTL100059

SPECIFICATIONS

Input	:	2 wire (WDC cable)
Luftfugtighed	:	5% to 95% (non-condensing)
Maks. afstand	:	100 m
Output	:	RJ11 / RJ12 (6p4c)
power consumption	:	60mW
Weight	:	60 g
Dimensioner	:	60×18×18 mm
