

1 port USB til CAN FD bus adapter. Support CAN 2.0A/B. ISO 11898_2:2016. up to 8Mbps

FEATURES

- High speed CAN FD interface via USB port
- 10-pin terminal block connector for connection to one CAN interface
- ISO 11898-2:2016 CAN specification
- ISO 11898-1 for CAN and CAN FD
- CAN FD supports both ISO-11898-1:2015
- CAN FD data rate of up to 8 Mbps
- CAN bus speed up to 1 Mbps
- Non-standard baud rates are supported
- CAN FD port with +5VDC/100mA current output
- CAN 2.0A and CAN 2.0B protocols
- Listen mode, Loopback mode
- CAN FD interface controlled over COM port using simple ASCII commands
- Powered by USB port
- Includes a USB A/B cable. Cable length: 90 cm
- Windows 7 up to Windows 11, Windows Server and Linux OS
- Supports Linux SocketCAN (SLCAN)
- CanFestival drivers, CANHacker for analyzing CAN frames
- API library of C/C++, C#, VB6, VB.NET, Python and LabVIEW
- ABS plastic housing
