

2 x 0-20mA or 0-10V, 4-20mA transmitter, 16bit resolution, 1-wire interface

## FEATURES

- 2 channel current transmitter with 1-wire interface
- current measurement: 0-20mA (4-20mA) current loop
- Select voltage measurement: 0-10V with Mode to GND
- Resolution: 16bit
- Accuracy: +/-1%
- Input is galvanically isolated
- Supply voltage: 5VDC 25mA
- Temperature range: -20 - +60°C
- IP20
- Dimensions: 120 x 36 x 60 mm
- DIN mounting
